

Bite this

Right here, right now, it's where it all begins.
Don't look back now, you know it'd be a sin
This is today, no future and no past.
This is today and you know it's clear as glass

Bite this!

I got a spotlight, shining down on me.
I can control now, My own destiny.
In wake or dreaming, I know what I am.
Take a look at me now, this is where it all begins

Bite this!
Like this!

Well I got time for this,
And I got time for that,
It's my time to choose,
You know that it's a fact...

Bite this
Like this!

Solo

Take me face value, because I am me.
I can control now, my own destiny.
In wake or dreaming, man I know what I am!
Take a look at me now, this is where it all begins!

Bite this!
That's it...
